

**DUE TO THE RED FLAG RULE THAT BECAME
EFFECTIVE MAY 1, 2009**

We are required by the Federal Trade Commission to have a photo ID on file for every patient in order to prevent identify theft.

If the address on your photo ID is not current, we must also have a copy of mail correspondence on file (utility bill or credit card statement with your name and current address).

If this is your first visit and you do not have all of the required information, we are required to reschedule your appointment.

If the patient is a minor we are required to have the above information on file for the legal guardian.

Thank you for your cooperation.
